Institutional Distinctiveness

Our college aims to provide the best possible education and instil good values for the overall development of our students. We believe in using our available resources efficiently and effectively to achieve this vision. We organize various activities such as seminars, quiz contests, and guest lectures, alongside regular classes, class tests, and house tests. These activities enrich the character and personality of our students. Our academic curriculum has been designed to prepare our students for the business of life, while the values imparted through all the minute details of the curriculum help them become responsible citizens. Our well-equipped library has a wide collection of textbooks, magazines, newspapers, and reference books which are easily accessible to the students and help them enhance their academic and competitive skills. We also organize various programs at the institutional level to ensure the participation of students in social awareness issues. We conduct awareness programs and rallies related to the environment, prevention of HIV/AIDS, drug abuse awareness, e-pledge on no to drugs, and road safety awareness activities in the campus and surrounding areas from time to time. In addition to their academic studies, students are also motivated to participate in extracurricular activities conducted through NSS, NCC, Rovers and Rangers, Red Ribbon Club and Eco-Club. Additionally, through blood donation camps, students engage in the selfless act of giving blood in times of need. We strive to create an inclusive environment for our students and take various measures to achieve this goal.
